

### **How to update your North Dakota plates in the permit system profile:**

To change your truck information:

1. Log into permit system
2. Click on Maintain profile
3. Click on Power Units (bottom left)
4. Find power unit in list
5. Click edit (in blue under truck)
6. Type in new plate
7. Click save

If you get the error message, Number of Axles cannot be less than 2 or greater than 7

1. Delete the 0 in the number of axles under the axle information
2. Click save
